

## **Senior Handymen Wanted! Military Veterans Welcome!**

An exciting new home & facility repair company seeks men and women who are multi-skilled with their hands and in their leadership, and who have a desire to:

- Get their hands dirty
- Change lives by mentoring younger workers and impacting customers
- Join a phenomenal team dedicated to service, integrity & quality
- Blow the lid off customer service in the home/facility repair industry!

### **Job description**

This is a Senior Handyman position that will require the successful candidate to perform home and facility repairs, maintenance, and light construction. Project durations will vary greatly, from minutes to weeks. Impeccable customer service skills are required, and company-specific training will be provided.

This position will not only perform work, but will also train and mentor less experienced employees through hands-on, on-the-job teaching as well as academic discussions and demonstrations. Therefore, the successful candidate must be practically-minded and possess knowledge and/or experience with a wide range of construction, repair and maintenance concepts related to heating/air conditioning, appliances, carpentry, concrete, drywall, electrical, flooring, painting, plumbing, roofing, kitchen/bath/basement remodeling, pressure washing, landscaping, fence repair, and windows/doors.

Much of the daily work requires bending, squatting, climbing ladders, lifting and carrying heavy objects (>50 lbs), so the successful candidate should be in appropriate physical condition.

### **Qualifications**

- High School diploma/GED required; formal training in skilled trades preferred
- Must have own form of transportation and valid driver's license
- Must be able to qualify for military base access & comply with drug-free workplace policy
- Must be fluent in English (reading, writing, speaking); Spanish proficiency also preferred
- Must have the physical ability to bend, squat, climb, and lift/carry objects >50 pounds
- Must have 10+ years' supervisory experience in facility construction/repair/maintenance
- 20+ years' experience in a specific trade preferred (e.g. carpentry, electrical, plumbing)
- Should have recent experience with residential building codes and county/city permitting and licensing processes related to residential repair & construction
- Knowledgeable of safety/environmental regulations associated with construction & repair
- Able to work efficiently and effectively, whether independently or as part of a team
- High moral character, integrity, trustworthiness, and care for others are essential
